

WHEN A TEAM IS LATE REPORTING FOR WARM UP - WARM UP PROCESS:

Any team who reports late to their warm up process and safety check will lose warm up time. It is important to report on time so the Championships can run smoothly.

1. If a team has missed their safety check time, a safety check official will notify:
 - A. The warm up official.
 - B. Announcer to have it announced in the venue.
 - C. Team Pass Gate to see if the team has checked in.
2. The warm up official will assign someone to keep track of where the team would go in the warm up process once they arrive. Once a warm up time in an area is over, the team cannot go to it. It is sacrificed.
3. When the team arrives at warm up:
 - A. The safety check will be done by a safety check official.
 - B. The safety check official will walk the team to the warm up official so he/she can get them placed in the proper warm up stage (photo, stretch, mats).
 - C. The late team will then process through the rest of the warm up as scheduled.
4. The late team sacrifices their warm up time.
