To move up in a range consider: difficulty of skills, % of team participation, variety, pace, combination of skills, numerous formation, and level changes (dance), and synchronized motions.

Motion Execution: Sharpness, wrist and arm placement, uniformity, seamless transitions, timing – using poms for over half of the cheer and/or dance could result in a lower score.

Dance Execution: Perfection of routine and technique, sharpness, spacing, rhythm, transitions, patterns of movement, uniformity, timing.

Dance Visual Effects: Transitions, formations, level changes, variety of movements, foot and floorwork, partner work, and creativity.
