

MAJORITY CLASSIFICATION FOR STUNTS
July 2024

Coaches: Please note the information below as it pertains to the State Cheerleading Championships scoresheets. There is a difference between stunt groups meeting the “majority” range and “maximizing” the scoresheet.

- To score within the majority range, it is a matter of performing skills with **more than half** the stunts possible.
- “Stunts Possible” is defined as the team size divided by 4. If this is a decimal, then round down to the nearest whole number.
- Difficulty is based on four-person stunt groups. (To maximize the difficulty score, stunt groups would not use fronts.)

Team Size	Stunt Groups to Meet "Majority" Range	Stunt Groups to Maximize Rubric (Difficulty Drivers)
6	1	1
7	1	1
8	2	2
9	2	2
10	2	2
11	2	2
12	2	3
13	2	3
14	2	3
15	2	3
16	3	4
17	3	4
18	3	4
19	3	4
20	3	5
